Binle House, Asron Place, N. Y.—In the early part of February, 1865, I was suffering from a violent cough, for which I had been treated during gix months previously without benefit. I had MyAs Bessels which completely prostrated me. In the evening, hearseness would come on, which would prevent me from speaking above a whisper. I had then had two attacks of bleeding from the lungs:—My Family Physician assured me that he could do no more for me. I was growing rapidly worse, and had been sompelled to leave hushers for nearly two mouths. All my symptoms indicated, unmistakano more to me. I was a was a spony worse, and been sompelled to leave business for nearly two months. All my symptoms indicated, unmistakably, the presence of CONSUMPTION. In the beginning of February, Mr. HERRY FIBERR, Treasurer of the American Eible Society, pre-enter me with a bottle of the PREPARED FRESCRIPTION. In a few days, my appetits (which I had entirely lost), returned; within a week, my sound had almost left me; and in less than two weeks the Night Sweats were broken up. Thenceforward I regained strength rapidly, and am now regularly attending to my duties as eirk to the AMERICAN BIBLE SOCIETY in whose employment I have been nine years. I am now enjoying good health. Your PRESCRIPTION effected a CURE, when my friends despaired of my recovery.

REASONS WHY THE

# MADE AT WALTHAM, MASS.

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shoek can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all spechanism should be ACCURATE, SIMPLS, TRONG AND ECONOMICAL. Except som high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, sorumed and riveted together, and require constan repairs to keep them in any kind of order. All per sons who have carried "ancres," "lepines" and English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten

years ago, it was our first object to make a thoroughly good low priced watch for the million, to ake the place of these foreign impositions; the refuse of foreign factories, which were entirely unsaleable at kome and perfectly worthless every How well we have accomplished this, may be un-

derstood from the fact that after so many years of public trial, we now make MORE THAN HALF OF WILL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves. and unsurpassed by anything made in the world,-For this purpose we have the amplest facilities. W have erected an addition to our main building expressly for this branch of our business, and have Hed it with the best workmen in our service. New machines and appliances have een constructed which perform their work with consummate deliceor atid exactness. The choicest and most approved materials only are used, and we challenge compar ison between this grade of our work and the finest imported chronometers. We do not pretend to seil our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all fines against us or our agents in all parts of the

FROM NEW YORK.

Emigration from Arkansas and Missouri - Dissatisfaction with the Revenue Laws in Massachusets-Receipts of Flour.

New York, Nov. 27.—The World's Balti-more special says: The New Orleans pa-pers received this afternoon contain later dates from Texas. Large numbers of emigrants were pouring into the interior of the State, a portion of whom were of foreign birth, but the majority were from Arkansas and Missouri. The influx had caused buildings to become very scarce, and in Rusk county it was impossible to get out lumber fast enough to provide shelter for the new comers.

The Federal troops stationed at Waco were amusing themselves by appropriating the horses of the residents, which once taken were never more returned. Many of the settlers in Montague, Jack-

son and Gainsville counties have been driven from their homes by the Indians. A World's Boston special says: There is proceed to sink wells, growing dissatisfaction with regard to the working of the revenue system. A case was brought on in the Circuit Court to-day, in which a party had been indicted for selling liquor without a United States license. The pica was that the United States could not take money legally from persons car-rying on what was held to be an unlawful business. The court ordered that the arguments be submitted in writing to the Su-preme Court, the judges of the Circuit Court being unable to agree to the question. The receipts of flour at this port during the past two weeks were 1,505,870 barrels. against 757,700 during the corresponding period in 1865, yet in the face of this doubling of supply, prices are far higher than

#### Financial Matters.

NEW YORK, Nov. 27 .- The Post's money article says: The loan market is abundantly supplied at 7 per cent, for call loans, and there is a fair volume of transactions at 6 per cent., with a general tendency towards easier rates. Discounts are quiet at 7 per cent. Very choice names pass at 6@ 14 for short date paper. Good bills are quoted at 8@9, with slow sale. The stock market is active but feverish. Governments are better, in consequence, partly, of the recent short sales by speculators, and of the demand for foreign account, but chiefly from the large and increasing in-vestment demand. The last named cause influences chiefly the 5-20s, and to a less extent the 7-30s; but almost all description of Government securities is improving in sympathy. After the regular board the uotations were: New York Central 1135 Erie 73, Hudson River 122, Reading 113½ Michigan Southern 83½, Illinois Central 119¼, l'ittaburgh 86¼, Northwestern 44¼, Northwestern preferred 73, Toledo 114¼, Rhode Island 105½. Fort Wayne 1065%, Ohio and Mississippi certificates 305%.

The advance in gold has put down the value of old 5-20's 15014 below the London quotations, and from the tew purchasers of bonds by foreign bankers this morning, i is evident that a certain supply of bills will come from that source, and this consideration has checked the buoyancy of the market. The upward tendency in stocks was sustained at the morning Boards, but between Boards there was a reaction, and prices fell off 1/2al per cent. Erie is one of the most prominent speculative stocks. A strong clique stand committed to higher prices, having bought large amounts of the stock previous to the fall in quotations. There is, however, a considerable short interest in the stock, and the upward movement is disputed at every step. Governments are more in demand, especially old 5-20's, owing to the decline in gold.

NEW YORK, Nov. 27 .- The Post's Washington special says: Prominent Southern men have urged Secretary McCulloch to recommend to Congress a reduction of the tax on cotton.

Conl Trade.

The Delaware, Lackawanna and Western Railroad Company sold to-day 40,000 tons of Scranton coal. The different varieties sold at a decline, varying from forty-five cents to a dollar and a half per ton. The coal is delivered at Elizabethport in tons of 2240 pounds. Lump sold at an average of \$3.80, steamboat \$4.25, grate \$4.90, egg \$4.95, stove \$5.42, Chestnut \$3.80.

Investigation of the Distillery

Cuses-Death of a Naval Officer. NEW YORK, Nov. 27 .- The investigations

of the illicit distillery business in this city still continue, and to-day additional distilleries and a quantity of whisky were seized. The streets are full of all sorts of absurd rumors this afternoon as to the relation with England, Mexico, &c., but though they are pretty well understood to be the meres inventions. The speculators have used them with success to run up the price of gold several per cent. Parties who bought in at 1311/2 last week are now enabled to sell out at a handsome profit. Meeting of the Directors of the

ALBANY, Nov. 27.—A meeting of the Board of Directors of the New York Cen-tral Railroad Company was held here to-day. There are rumors that the Vanderbilt move sent to secure control of the Road was chec'Tmated, and that Erastus Coraing will be chosen President, and Wm. G. Fargo, Vice President. We learn from the best authority that nothing occurred at the meeting to justify these statements, and that only the ordinary routine of business was transacted.

FROM HARTFORD, CONN. A Republican Mayor Elected. New York, Nov. 27 .- The World's Hart-

ford special says that Allyn Stillman, the Republican candidate for Mayor, has over 200 majority, and the entire Republican ticket of town officers is elected, according to official returns, by from 34 to 176 ma jority. A light vote was polled.

LYON'S PERIODICAL DROPS! THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pilla, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them w ralishte, sceedy and pertain specific for the cure of all obstructions and suppressions of nature, . Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly tak-ing the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength: Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contra-ry to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of Jone L.
